

Investment and Development Agency – CASE STUDY

ENERGY UTILITY

CLIENT:

Lucky Chain

SCOPE:

The focus of the investment was on an electric and water utility in an African country undergoing privatization.

In addition to the production of energy and water, the distribution area also included electrical distribution and commercialization.

SERVICES:

- Detection and selection of investment opportunities in the energy sector for the investor
- Establishing a bridge of contact and communication between all stakeholders
- Coordination and performance of full due diligence, covering the technical, commercial, corporate and business areas

SECTORS:

Energy, Water Supply, Sanitation
